## WHAT WE DO

**Connolly Stairs** is a leader in the stairs industry. We supply to house builders, loft specialists, joinery manufacturers and the general public, offering a full planning and expert advice service.

We supply an extensive range of spindles, handrail and newel posts. We offer full expert advice and design service with free quotations and callouts whether it be daytime evening or weekends all to suit your convenience. We guarantee you will not find a more professional and affordable staircase manufacturing company.

### Did you know

We also offer a **cutting service** for all your specialised requirements. Contact us for more details and prices.

### Did you know

We offer a bespoke copy **turning service**, giving us the flexibility to produce any design of spindle and not just the designs featured in this brochure.

## MATERIALS

### TIMBER

A variety of native and imported hardwood species such as: Walnut, White Oak, Red Oak, Red Deal, Maple, Beech, Teak, Ash & Cherry.

### GLASS

Mostly used in the contemporary design. Clear toughened glass is the most popular.

### STAINLESS STEEL

Again mainly used in contemporary and commercial design.

### WROUGHT IRON

Becoming more popular for the classic colonial look.

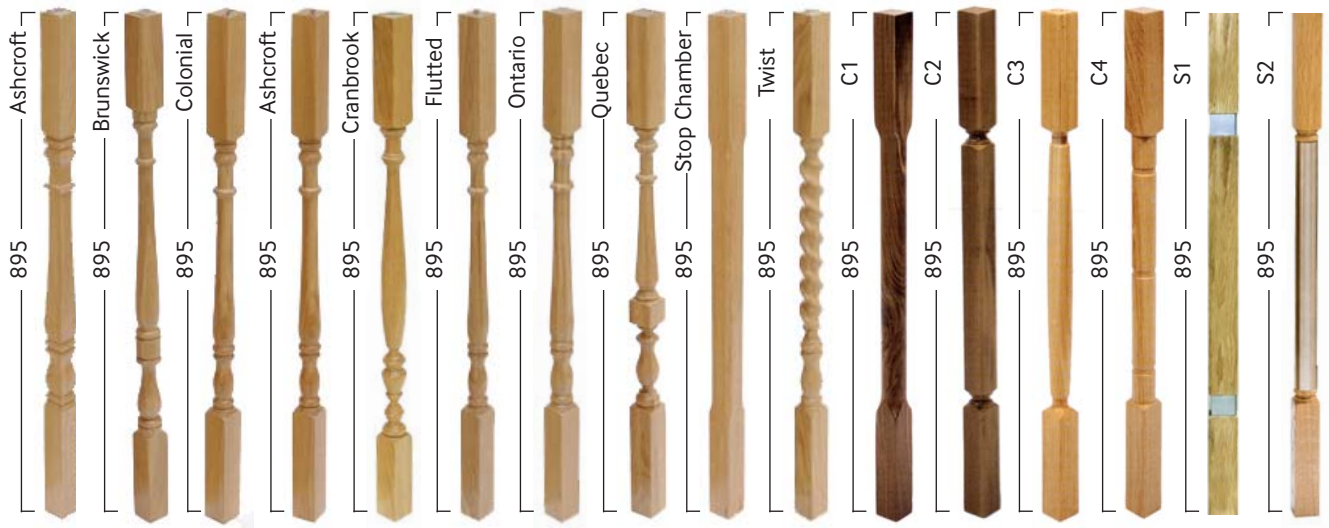

## DESIGNS

After several years of commitment to quality, design and build, **Connolly stairs** has built up an enviable portfolio of work ranging from intricate traditional design staircases all the way to the leading edge in contemporary design pieces that incorporate new materials such as steel and glass.

# NEWEL POSTS

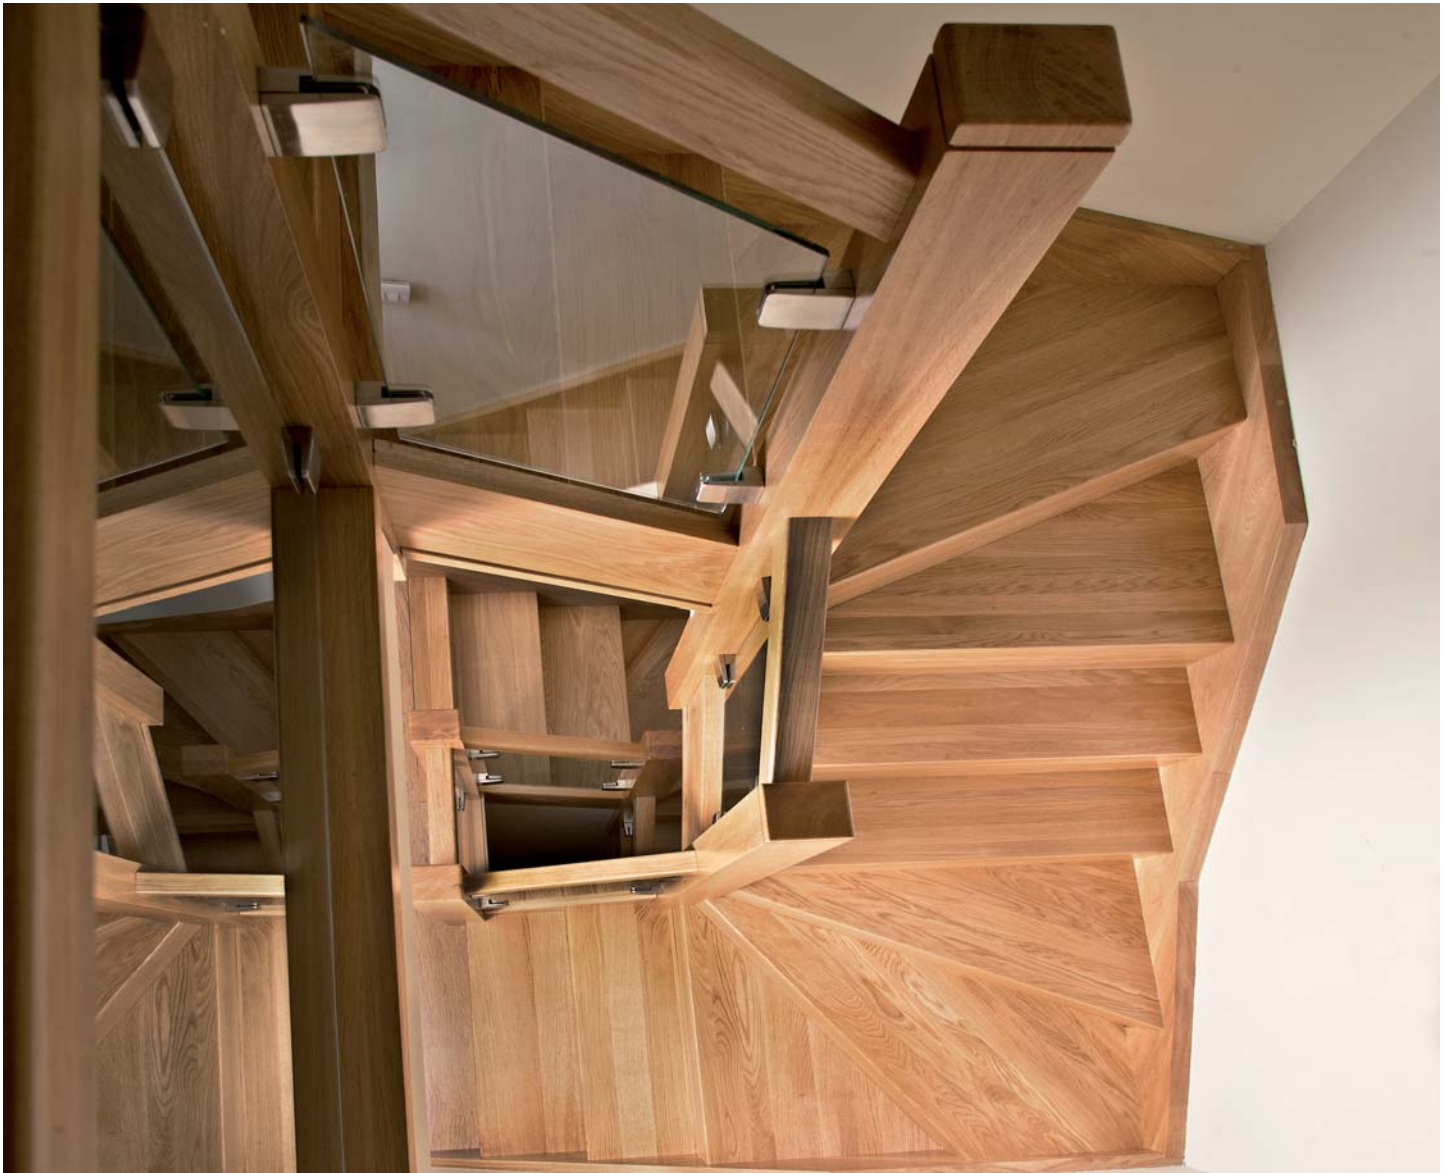

# SPINDLES
